CARE OPTIONS

Safety Net utilizes a research-based curriculum entitled, "Positive Action," which teaches resiliency and social competency skills including*:

- Communication
- Decision making
- Goal-setting
- Stress & Anger management
- Problem solving
- Resisting peer pressure

* The curriculum is approved by the Substance Abuse and Mental Health Services Administration (SAMHSA) - a branch of the United States Department of Health and Human Services.

Child & Family Guidance Center recognizes that teens may be dealing with depression, low self esteem, and high-risk behaviors such as: truancy, substance abuse, delinquency, violence, and teen pregnancy.

Through collaboration with schools, the Safety Net team acts as a second set of eyes and ears for school staff and as an important outlet and resource for students.

During the summer months, Safety Net partners with community organizations to provide prevention programming to youth.

The Safety Net Program is also available for speaking engagements, health fairs, and community fairs.

This service model allows Child & Family to maintain our program goals to:

- Spread awareness of alcohol, tobacco, and other drugs and their impacts on health
- Teach positive ways to avoid the use and misuse of substances
- Aid adolescents and their families in finding solutions to life-challenging issues while encouraging and supporting their continued success and healthy decision-making
